Candado de latón macizo.
Cilindro de llave dentada de alta precisión de mecanización, que favorece a la perfecta sincronización entre llave y pitones.
Componentes internos inoxidables.
Arco de acero de alta calidad, tratado térmicamente ***(doble proceso de carbonitruración)*** a partir de 20 mm.
Arco con mayor resistencia al corte por cizalla y sierra.
Arco cromado, tratado químicamente con 3 capas anticorrosión. Mecanismo de doble bloqueo del arco a partir de 30 mm.

Solid brass padlock
Cylinder with jagged key.
High precision mechanization that favours a perfect timing among pins and key.
Inside parts made of **rutsproof** materials.
High quality shackle, heat treatment **(double nitrogenation of carbon)** from 20 mm.
Shackle highly resistant to shear and saw cutting.
Chromed shackle treated chemically with **3 anti-rust layers.**
Shackle with double-lock mechanism from 30 mm.

Cadeado de latão maciço
Cilindro de chave dentada de **alta precisão** de mecanização, que favorece a perfeita sincronização entre chave e pitões.
Componentes internos **inoxidáveis**.
Arco de aço de alta qualidade, tratado térmicamente **(duplo processo de carbonitruração)** a partir de 20mm.
Arco com maior resistência ao corte por cisalha e serra.
Arco cromado, tratado químicamente com **3 camadas anti-corrosão**.
Mecanismo de duplo bloqueio do arco a partir de 30mm.
